DevOps engineer

PROFESSIONAL EXPERIENCE

13/01/20 **CIKLUM,**
(Málaga-Spain) Middle DevOps Engineer

Performed tasks:
I have been working with them with Chef, Terraform and Octopus deploy over AWS for scheduling and setting up production environments.
I work with TFS CI/CD automating processes and providing self-serving tools to development and QA teams.

04/11/19 **ISO – VERISK,**
(Málaga-Spain) DevOps Engineer

Performed tasks:
I have been working with them with Chef, CloudFormation and Octopus deploy for scheduling and setting up production environments.
I work with Atlassian suite automating processes and providing self-serving tools to development and QA teams.

12/03/18 **SEQUEL BUSINESS SOLUTIONS - VERISK,**
(Málaga-Spain) DevOps Engineer

Performed tasks:
As full member of DevOps team, I worked for two product teams managing their CI/CD pipelines from source code to fully functionally deployed applications ready for testing.
Using PowerShell, .net Core, Ansible, AWS and TFS (for Git & CI/CD). I work upgrading and developing processes to make them able to scale and Cloud friendly.

10/07/17 **SEQUEL BUSINESS SOLUTIONS - VERISK,**
(Málaga-Spain) Intern

Performed tasks:
I worked with recently created DevOps team migrating from Release Management deployment process to TFS based and updating scripts from cmd to PowerShell.

STUDIES

2018 Computer science
(Málaga-Spain) *University of Málaga*
With an 8.40 about 10, or 2.7 about 4
And 11 merits with Distinction.

SKILLS

I'm good at having a global vision of problems and splitting them into smaller ones which are easily to solve. Also, I like working as part of a team with implicate coworkers and I feel comfortable sharing knowledge.

LANGUAGES

Spanish: Native
English: High spoken and written level

OBJETIVE

In long term I would like to become Solutions Architect and I think DevOps engineer is a proper way to start, as DevOps is a transversal role where all the requirements need to be in mind, not just development but also integration in client side.
In the mid-term I want to keep acquiring experience and sharing what I already know with my colleagues.
